   - W3 – Request for reconsideration
   - P12 – no reason given
   - ZE10 – no reason given
   - 18 – Duplicate claim/service

Issues

1. Were the disputed services subject to a specific fee schedule set in a contract between the parties that complies with the requirements of Labor Code §413.011?
2. Which reimbursement calculation applies to the services in dispute?
3. What is the maximum allowable reimbursement for the services in dispute?
4. Is the requestor entitled to additional reimbursement for the disputed services?

Findings

1. 28 Texas Administrative Code §134.404(e) states that: "Except as provided in subsection (h) of this section, regardless of billed amount, reimbursement shall be:

   (1) the amount for the service that is included in a specific fee schedule set in a contract that complies with the requirements of Labor Code §413.011; or

   (2) if no contracted fee schedule exists that complies with Labor Code §413.011, the maximum allowable reimbursement (MAR) amount under subsection (f) of this section, including any applicable outlier payment amounts and reimbursement for implantables."

   No documentation was found to support the existence of a contractual agreement between the parties to this dispute; therefore the MAR can be established under §134.404(f).

2. §134.404(f) states that "The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied.

   (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:
   (A) 143 percent; unless
   (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 108 percent."

   No documentation was found to support that the facility requested separate reimbursement for implantables; for that reason the MAR is calculated according to §134.404(f)(1)(A).

3. §134.404(f)(1)(A) establishes MAR by multiplying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors (including outliers) by 143%. Information regarding the calculation of Medicare IPPS payment rates may be found at http://www.cms.gov. Documentation found supports that the DRG assigned to the services in dispute is 473, and that the services were provided at TEXOMA MEDICAL CENTER. Consideration of the DRG, location of the services, and bill-specific information results in a total Medicare facility specific allowable amount of $13,986.16. This amount multiplied by 143% results in a MAR of $20,000.21.

4. The division concludes that the total allowable reimbursement for the services in dispute is $20,000.21. The

respondent issued payment in the amount of $20,000.20. Based upon the documentation submitted, no additional reimbursement is recommended.

Conclusion

For the reasons stated above, the division finds that no additional reimbursement is due.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to $0.00 reimbursement for the disputed services.
